

**MASTER
NATURAL GAS ENGINE OIL**

“Protecting against the impact of aging and contamination for efficient lubrication”

MASTER NATURAL GAS ENGINE OIL

MASTER NATURAL GAS ENGINE OIL is a low-ash lubricant for engines operating on natural gas. It is blended using high viscosity index base oils and selected packages of additives to improve system efficiency by protecting against the impact of aging and contamination for efficient lubrication.

APPLICATIONS

- Suitable for generator sets operating on natural gas
- It resists compound build-up which rapidly reduces oil life
- It helps to minimize deposit build-up and keeps engine clean

BENEFITS

- ☑ Excellent lubrication, wear protection and anti-scuffing properties
- ☑ Low ash minimizing deposits formation.
- ☑ Trouble free long service life
- ☑ Lowers maintenance cost
- ☑ Enhanced operational efficiency

TYPICAL DATA

PHYSICAL CHARACTERISTICS	API CF - SAE 40	
	TEST METHOD	TYPICAL VALUE
Kinematic Viscosity, cst @40 °C	ASTM D 445	125.8
Kinematic Viscosity, cst @ 100 °C	ASTM D 445	13.8
Flash Point COC, °C	ASTM D 92	238
TBN, mg KOH/g	IP-125	5.0
Sulphated Ash, wt. %	IP-287	0.45

Packings **205 Ltr.**
